

# Product datasheet

Hardwood screw (A4 stainless) for wood  
stud

V/S/B<sup>®</sup>  
VÄSTSVENSK BYGGSKRUV AB

**Function:** Sharp tip and threads adapted for anchoring in wood. The threads immediately grip and tighten the screw to the decking. The threads underneath the head fix the decking while the head sinks by itself. Suitable for installing decking, balconies, jetties, fences etc. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

- Less risk of cracks in wood.
- Lower torque when tightening.
- Less screwing time.

**Track type bit:** TX 25.

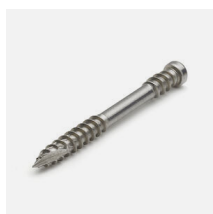

**Material:** Stainless steel (A4).

**Installation instructions:** A power screwdriver with depth stop is recommended.

**Sizing:** About 30 pcs/m<sup>2</sup>.

VÄSTSVENSK BYGGSKRUV AB

For the best  
finish, the  
hardwood may  
need to be pre-  
drilled.
