

# Product datasheet

## Nylon plug KE

**Function:** Solid plug with good temperature and ageing properties. The plug design prevents any rotation when installing and allows for targeted anchoring. The plug has a short anchoring section adapted for use with solid materials such as concrete, stone and solid tile.

**Material:** Nylon.

**Installation instructions:** Drill a hole adapted to the size of the plug as shown in the table below. Push the plug into the hole until the collar is firmly flush to the fastener. Now screw in the screw adapted to suit the plug as shown in the same table. The length of the screw should be about 5 mm longer than the plug and attachment together.
