

Product datasheet

Universal plug

Function: The plug is designed to be used with most building materials, but is most suitable for use with sheet material. The plug expands in solid material but in hollow block and board material it will kink.

Material: Polythene.

Installation instructions: Drill a hole adapted to suit the size of the plug as shown in the table below. Push the plug into the hole. Fit the fastener with screw adapted to the plug as shown in the same table. The length of the screw should be about 5 mm longer than the plug and attachment together.
