

Product datasheet

Perforated sleeve for chemical anchor

V/S/B
VÄSTSVENSK BYGGSKRUV AB

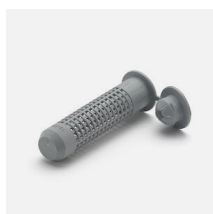

Function: The perforation sleeve is used together with the chemical anchor for attachment to hollow block. The sleeve causes the chemical anchor to form a body around the part to be fixed to the hole.

V/S/B
VÄSTSVENSK BYGGSKRUV AB

Installation instructions: Drill holes in the hollow block as instructed and push into the perforation sleeve in the hole. Fill the entire perforated sleeve with chemical anchor. Now press in and screw the fastener to the bottom of the perforated sleeve. Allow the compound to cure before loading.
