

Function: The screw is designed to be used to lock the frame sockets in place when installing in wood.

Track type bit: TX 40.

Material: Case hardened steel.

Coating: Zinc-plated 5 my, for indoor use.

Installation instructions: Once the frame socket is fitted as instructed, the socket is fixed with a frame socket screw for concrete, after which the frame can be set to the correct position. When installing in concrete, drilling is required as shown in the table.
