

Function: Jetting Screws TFT is a patented wood screw with countersunk head. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, deeper thread and head than normal wood screws, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

- Less risk of cracks in wood.
- Lower torque when tightening.
- Less screwing time.

Drive type: TX 10, 15, 20, 25 and 30.

Material: Case hardened steel.

Surface treatment: Zinc-plated 5 my, for indoor use.
