Wood screw TFT (external) with long thread

V/S/B
VÄSTSVENSK BYGGSKRUV AB

Function: Jetting Screws TFT External with long thread is a wood screw with countersunk head. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, deeper thread and head than normal wood screws, as well as with oblique and longitudinal intersections between the threads. This provides the following benefits:

- Less risk of cracks in wood.
- Lower torque when tightening.
- Less screwing time.

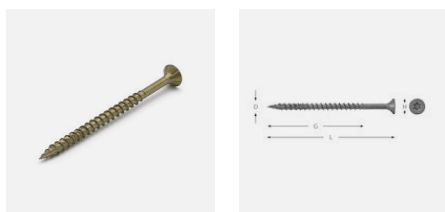

Track type bit: TX 25 and 30.

Material: Case hardened steel.

Coating: Zincotech Au, corrosivity class C4, for outdoor use.

Jetting screw for outdoor use with long thread.
