

Function: Jetting Screws TFT A4 Stainless steel is a wood screw with countersunk head. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, deeper thread and head than normal wood screws, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

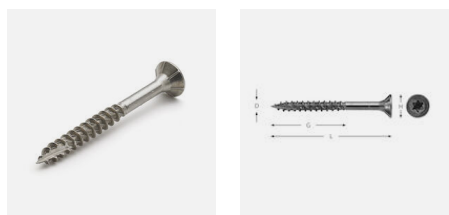

- Less risk of cracks in wood.
- Lower torque when tightening.
- Less screwing time.

Track type bit: TX 15, 20, 25 and 30.

Material: Stainless steel (A4).

**A4 Stainless steel
Jetting screw.**
