Wood screw T6SF (external)

V/S/B
VÄSTSVENSK BYGGSKRUV AB

Function: Jetting Screws T6SF External (Jumbo Jetting) is a patented wood screw with hexagon head and flange. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

- Installation without pre-drilling.
- Greater strength than normal wood screw.
- Lower torque than normal wood screw when tightening.
- Less risk of crack formation in wood.
- Less screwing time.

Drive type: Sleeves 8, 10, 13 and 16 mm.

Material: Case hardened steel.

Surface treatment: Zincotech Ag, type approved for corrosivity class C4, no. 0167/07, for outdoor use.

**Jumbo Jetting
for outdoor
use.**
