

Product datasheet

Wood screw T6SF (external)

Function: Jetting Screws T6SF External (Jumbo Jetting) is a wood screw with hexagon head and flange. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

- Installation without pre-drilling.
- Greater strength than normal wood screw.
- Lower torque than normal wood screw when tightening.
- Less risk of crack formation in wood.
- Less screwing time.

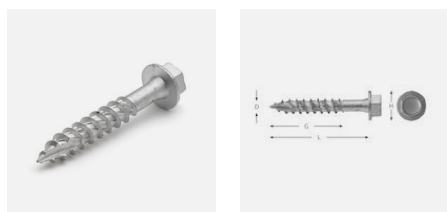

Jumbo Jetting for outdoor use.

Track type bit: Sleeves 8, 10, 13 and 16 mm.

Material: Case hardened steel.

Coating: Zincotech Ag, corrosivity class C4, for outdoor use.
