Product datasheet
Wood screw Wafer (external)

V/S/B

Function: Jetting Screws Wafer External is a wood screw with low profile pan head. The unique tightening features of the screw have been achieved by providing the screw with a cutting drill tip, as well as with oblique and longitudinal flanks between the threads. This provides the following benefits:

- Installation without pre-drilling.
- Greater strength than normal wood screw.
- Lower torque than normal wood screw when tightening.
- Less risk of crack formation in wood.
- Less screwing time.

Track type bit: TX 30 and 40.

Material: Case hardened steel.

Coating: Zincotech Ag, corrosivity class C4, for outdoor use.

JETTING SCREWS

Wafer Jetting for outdoor use.
